FACILITIES:								
Rancho Dominguez	0.0	7.0	0.0	0.0	122.6	33.0	162.6	1. The addition of the Hayward facility to the 2021 carbon audit resulted in an increase in company emissions from 2020 to 2021. 2. LA, Honolulu, Maui, and Guam installed rooftop solar panels, which accounts for their reduced or zero electricity emissions. 3. Overall, emissions on a per facility basis are 65% lower as compared to the initial 2011 audit.
